OBJECTIVES

A driven and self-motivated Computer Engineering fresh graduate with solid competencies in programming, embedded systems, UI/UX design using Figma, and networking fundamentals. With certifications in Fortinet cybersecurity and Microsoft enterprise technology achieved while in my OJT. Eager to join a dynamic organization where I can leverage my technical versatility, fast-learning ability, and initiative to grow as a computer engineer and deliver impactful solutions.

EDUCATION

Bulacan State University (Bustos Campus)

Bustos, Bulacan

Bachelor of Science in Computer Engineering

June 2026

- Thesis: Development of SFMS: Smart Flood Monitoring System Utilizing Pole-Mounted Sensors and Multi-Modal Alerts

WORK EXPERIENCE

Nimbustechologies Inc.

Makati City

Pre-sale Engineer (Intern)

June – July 2025 (250Hrs)

- Technical Troubleshooting (Hardware and software)

SKILLS & TECHNICAL COMPETENCIES

Programming & Software

- Proficient in C++, Java, and Python programming

Productivity & Design Software

- Microsoft Office Suite: Word, Excel, PowerPoint
- AutoCAD Applications
- Figma

Embedded Systems & Hardware

- Electronics and Microprocessors: Arduino, ESP32

Networking

- Networking: Cisco Networks fundamentals

Core Competencies

- Fast learning, Resourcefulness, and Ability to adapt quickly
- Self-motivated; takes initiative and delivers on responsibilities

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Cybersecurity

- Fortinet Certified Fundamentals in Cybersecurity — Fortinet Training Institute
- Fortinet Certified Associate in Cybersecurity — Fortinet Training Institute

Microsoft & Enterprise Technology

- Microsoft Teams Rooms Solution Sales Professional 2025 — Expertzone
- Microsoft Places Technical Solutions Professional 2025 — Expertzone

Emerging Technologies & Engineering

- Machine Learning for Future Engineers
- Internet of Things (IoT) in Workplace and in Everyday Life
- Ethical AI and Employment: Balancing Innovation and Workforce Impact
- Building the Future: How Computer Engineering Shapes Our World

- Data Analytics in Building Projects
- Behind the Scenes of Logistics: The Hidden System to Keep the Goods Moving
- Ethical Hacking
- Protect, Secure, Defend: Master the Basics of Cybersecurity
- Workday & Jira: A Launchpad for Careers in Enterprise Technology

ICpEP.SE R3 Webinars

- Visual Programming and APK Development: Bridging Creativity and Engineering Innovation, 2025
